Subject: Possible joint council project - Footpath from Welborne to Barnham Broom

Dear Sonya,

My parish council has a few projects that we would like to pursue over the next year or so. One of them is to try and create a footpath between Welborne and Barnham Broom.

At present, the only way to walk between our villages is along roads. We would be looking for a route from Welborne to the BB Post Office crossroads. We would also, ideally, like to find a route to the golf club/hotel which would then open up links with other footpaths nearby.

It seems to us that, if we are going to be able to do this, it would really need commitment and help from your end as well - possibly by setting up a joint project with Barnham Broom Parish Council. We have noticed that there is only one public footpath in your parish and we feel you might like some more!

I should be grateful if you would raise this with your councillors to see whether they would be interested in working together with us on the project.

So far, we have got no further than assembling maps and finding out about the alternative ways of establishing footpaths or rights of way. The next stage would probably be to identify landowners along potential routes. However, at this stage, I am just asking your council to consider working with us. I, or Mike Webb, the councillor leading on the project, would be happy to come to a meeting of BBPC if you think that would help.

Regards

Simon Guest

Chair Brandon Parva, Coston, Runhall and Welborne Parish Council
